WE BELIEVE IN PROACTIVE SUPPORT & SERVICE AUTOMATION

- Rendering proactive support not only fix the problems before it arises, It also help us in reducing our support cost.
- Our Level-1 Support team (60% of support manpower) who engage only with proactive support.
- Periodically we are implementing automation & reducing the monitoring load so that we can achieve 24/7 support instead of 16/7 support along with reduction in cost.
- 99% of the infrastructure related problems such as servers / network / storage never get noticed to the customers.
- WhatsApp based chatbot support services trigger the respective team quickly and assist in closing the issue.
- ITSM - Based ticketing system & knowledge base for tracking & escalating all the problems.
